

NSBE CKY and YPinLex Wine Tasting

On July 15, 2016 National Society of Black Engineers Central Kentucky Professionals (NSBE CKY) and the Lexington Urban League Young Professionals (YPinLex) hosted a joint Wine Tasting at Talon Winery in Lexington, KY. Members from both organizations as well as other community members came together for a great time of food, fun and fellowship while also raising funds for both organizations. Both NSBE CKY and YPinLex are organizations focused on improving the local community. NSBE CKY focused on STEM awareness while YPinLex focuses on civic engagement.

The National Society of Black Engineers Central Kentucky Professionals Chapter is just one chapter of many within the umbrella of the National Society of Black Engineers (NSBE). The Lexington Urban League Young Professionals is part of a larger movement, the National Urban League Young Professionals. The local chapter supports is affiliate, The Urban League of Lexington-Fayette County.

The event allowed an opportunity for members of both organizations to come together to discuss the Lexington community and how they can work together to improve Lexington for future generations to come.

One highlight of the event was that custom wine bottles of Talon Winery's famous Bluegrass Blush were given away as door prizes. These custom bottles have the NSBE CKY logo on them. For more pictures you can follow both chapters on social media.
