

NSBE CKY at the Kentucky Science Center's Lexington Youth Science Summit 2016

On June 25, 2016 the NSBE Central Kentucky Professionals participated in the Kentucky Science Center's Lexington Youth Science Summit. This event was hosted at Lexmark International, Inc. This is the chapter's third year participating. Of course the activity provided by the chapter during the reverse science fair portion of the program was a hit!

What was the activity you ask? ICE CREAM! The attendees learned the "chemistry" behind making ice cream. For pictures from the event visit the NSBE CKY Professionals [Facebook page](#) or website: www.ckynsbe.org.
